OUR ADVENTURES BEGIN  
WHERE THE BEATEN ROADS END

## CAMPING / LODGING MOBILE SAFARIS

Our contemporary interpretation of the expeditions of the early explorers, where luxury is defined by the experience of exclusivity and the overwhelming feeling of being surrounded by kilometers of unexplored bush teeming with wildlife. The light of a camp fire to provide you with warmth after sunset, millions of stars for a ceiling and the sounds of wilderness to accompany your dreams.

One scheduled departure per month.  
All other departures are FIT basis

## CAMPING / LODGING MOBILE SAFARIS

Our Mobile Safaris start where the conventional roads end. Trust our professional guides to take you to the best and most secluded wilderness areas and National Parks. Live an unforgettable safari in close contact with the most pristine African nature, hundreds of kilometers away from civilization as you know it.

All our Safaris are conducted on custom made 4x4 vehicles that can host 2 - 9 persons and guarantee excellent visibility to all participants during game-viewing activities. Accommodation during the Mobile Safaris can be either camping or lodging. You will always be guided by a locally-based professional guide (English-speaker) and a local bush-chef to maximise your experience.

Our Safaris are “Non-Participation Tours”: participants will not have to do any of the tiring duties usually associated to camping, such as setting up or taking down the tents, cook or clean. Our organization provides a Bush-Chef / Camp Assistant to enhance the participants' experiences.

Camping is done in large and comfortable dome tents (3x3x2mt) with stretcher beds and sleeping bags, while lodging is done in comfortable, mid-range, self-contained accommodations. Meals are prepared by our bush chef directly on the camp fire when visiting the National Parks, while your guides can point out the best eating places when passing through or visiting main cities.

# CULTURAL / ETHNOGRAPHIC EXPEDITIONS

The privilege of being one of the few westerners allowed to participate the last remaining real Southern African cultural events. Our Ethnographic expeditions are a journey through time and culture, guided by very knowledgeable guides who will make you live Africa like you have never seen it before.

Kulamba - Chewa Tribe  
Likumbi Lya Mize - Luvale Tribe

## CULTURAL / ETHNOGRAPHIC EXPEDITIONS

Our Cultural / Ethnographic expeditions target only the most pure and genuine Southern African religious and cultural festivals, where only a very limited number of westerners are allowed. Thanks to our deep involvement with the local communities and profound knowledge of the local cultures, we are able to visit some of the masterpieces of a long-time forgotten, rich and amazing culture.

We specifically target three unspoiled different cultural ceremonies, two of which are patronaged by UNESCO as “Masterpiece of the Oral and Intangible Heritage of Humanity”: the “Kuomboka” Ceremony of the Lozi Tribe, the “Kulamba” ceremony of the Chewa Tribe and the “Likumbi Lya Mize” ceremony of the Luvale tribe. Each of

these Expeditions are led by expert guides and combine the beauty of traditional culture with the visit of at least one amazing National Park.

You will not only be able to assist the ceremony from a vantage position, but in most cases you will be able to experience them in the most fulfilling way, thanks to the assistance of the historians of the local tribes who will explain the meaning and significance of the rituals, masks, and dances you will see.

Only very few westerners have been able to witness such pure ceremonies: be one of this élite.

## MOTORCYCLE SAFARIS

Our amazing motorcycle safaris in Zambia and Botswana will take you to areas still barely touched by international tourism for an authentic African experience. These safaris combine the joy of a motorcycle tour and the emotions of game viewing in Zambian and Botswana National parks.

All groups are guided by a motorcycle-riding professional guide and can count on a 4x4 support vehicle that will offer assistance, carry all luggage and camping gears, as well as motorcycle passengers who might decide to “take it easy” for a day or two. No involvement is required by participants during camping days, as our Chef and Camp assistant will take care of all the logistics for you.

Camping is done in comfortable dome tents: (3x3x2mt) with stretcher beds and sleeping bags, while Lodging is in comfortable, mid-range, self-contained accommodations. Meals are prepared by our bush chef directly on the camp fire when visiting the National Parks, while your guides can point out the best eating places when passing through or visiting main cities.

The motorcycles used for these Safaris are our own reliable Honda Transalp 600cc (called “The Big 5”) completely refurbished and properly equipped for on- and off-road stretches.

An aerial photograph of the Victoria Falls, showing the massive waterfall cascading over a rocky cliff. A vibrant rainbow is visible in the mist rising from the base of the falls. The surrounding landscape is a mix of lush green vegetation and dry, brownish-yellow grass. A winding road and a railway track are visible in the foreground, curving along the edge of the falls. The water in the pool above the falls is a deep blue, with small islands of greenery scattered throughout.
